MARY J. JOHNSTON HOSPITAL, MANILA, P. I.

With the Nurses

Our thanks go out for the past year, with the Nurses. We feel sure it cannot be fruitless. We have given our best out to them and have seen many good results thro' them and expect still greater.

During the greater part of the year we have had thirty-seven Nurses in Training, at the present thirty-eight. Some have failed to keep up with the necessary requirements and have been dropped. The remainder are continuing faithful.

One of our greatest joys during the year has been the Senior Class (new graduates) composed of nine consecrated girls and as they go away from us we are praying that their faithfulness and zeal, in doing good, will not only continue but increase, as needs arise. The Class is as follows, and their destination to work:—

Benigna Montero for the Mission in Pangasinan.
Bienvenida Agoncillo—Mindanao, District Nurse.
Blaza Palma—Davao Hospital.
Eduviges Beltran—Baguio Hospital.
Valeria Alano—Bureau of Health District Nurse.
Trinidad Cruz—Olongapo.
Gregoria Queppet—Davao Hospital.
Balbina Basa—Olongapo.
Paz Garcia—Capiz Mission Hospital.

With the addition of Misses Bording and Kostrup, to our Nursing staff, we have been able to give more efficient teaching and to expect better results.

Mrs. McLaughlin has continued her Bible Class throughout the year, with, we trust much profit to the students. We are sorry that she will soon be leaving for the homeland and we shall miss her, not only as a teacher to the Nurses but for what she has meant to us as a good friend.

We are most grateful to Mrs. Cook, that she finds the time and has the interest to come such a distance to teach our girls Music. The Nurses enjoy and derive much benefit from the hour or hours she spends with them.

We have been most fortunate in that the Y. M. C. A. sends us a Physical Instructor, Mr. Filoteo, twice a week, in this way our girls can have recreation and play, as well as work. They enjoy immensely the different games and will be greatly benefited by them.

Surely good will come from the many efforts put forth, in the interest of them.

We have done our best and while we have come far short of what we would like to accomplish, still we realize that He can take the broken fragments and use them in His service.

MISS ANNA CARSON.
